# Turn on Splunk Assist

Splunk Assist provides insights into your Enterprise deployment based on the Support Usage Data that you share. The Splunk Assist service auto-updates to provide you with new and enhanced insights from time to time.

Turn on Support Usage Data (SUD)

Turn on Splunk Assist

Splunk Assist could not retrieve a valid license ID from your account. There is no support for using Free or Trial licenses. If you have a valid Enterprise license, contact Splunk support.
